<DATE>

Dear <Salutation>,

Right now, we have an incredible opportunity to purchase a 50-acre parcel of land in the Frontenac Arch and expand our Lost Bay Nature Reserve. And we need your help! Your gift will protect sensitive forest and wetland habitat, home to numerous endangered and at-risk species.

Together, we must act quickly to acquire this unique and biodiverse property. No matter where you live in Ontario, you can be part of protecting a special place where nature thrives.

<Salutation>, will you protect your share today? Your gift will provide crucial funding to purchase and protect this property forever.

This property extends a nature corridor within the Frontenac Arch Biosphere Reserve, providing a critical habitat link for terrestrial and aquatic species. Crucially, the Frontenac Arch is an important granite land bridge where the Canadian Shield connects with the Adirondacks and the St. Lawrence River, connecting the habitats of Algonquin Park and the Adirondack mountain region to the south.

And it's a vital piece of the puzzle to protect intact habitat while we can. This area acts as a funnel for migrating birds, bats, insects, and animals with large home ranges. At the convergence of 5 forest regions, the area supports globally significant biodiversity, important ecological functions and a unique

You can help us protect more vulnerable habitat with a gift in your Will.

Did you know that a gift in your Will or estate plan can be designated towards our Nature Reserves Program? Ontario Nature can use these gifts to help acquire new properties, to expand our nature reserves and to undertake stewardship projects like habitat restoration work. Even a small gift in your Will can help to ensure that this province's spectacular natural heritage is protected for generations to come.

- Please contact me about protecting nature forever with a gift in my Will.

suite of rare species.

Located within three kilometers of four Provincially Significant Wetlands, this parcel not only safeguards an important connection for wildlife to move and migrate between these wetlands, it also enhances landscape resilience to many anticipated impacts of climate change, including flooding and drought.

The property itself consists of natural cover, with a variety of upland forest and treed swamp, providing excellent habitat for an abundance of wildlife. Found in the area are 24 at-risk species and 16 provincially rare species including cerulean warbler, black ash, Blanding's turtle and eastern foxsnake.

Be a part of this exciting conservation project and help us make tangible gains for conservation. Together, we urgently need to raise \$200,000 to purchase this property and protect it forever.

When you Protect Your Share today, you will be saving critical habitat for endangered, at-risk, and fascinating wild species. You can use the enclosed reply form to make your gift or give online at ontarionature.org/ProtectYourShare or call Hayley at 1-800-440-2366.

Please, take a moment right now to Protect Your Share! Help us grow Lost Bay Nature Reserve today!

Yours, for nature,

Caroline Schultz

Caroline Schultz
Executive Director

P.S. Protect Your Share today! Together, we must raise urgently needed funds to expand Lost Bay Nature Reserve. This intact habitat is precious and we need your help to protect it forever!
